A time of peace

We all can see clearly that the state of the world is not good. You might even hear your parents discussing what they see on the news. Yahweh's people are looking forward to the establishment of Yahweh's Kingdom upon the earth. Many people are curious about what exactly the Kingdom will be like. While we are not given an excess of information, there are some things we can expect about the Kingdom.

First and foremost, there will be a time of peace that has never been experienced before. Many people around the world live in fear because things are so bad where they live. In the Kingdom, fear will end. Imagine living life without needing to lock your doors for fear of someone breaking in.

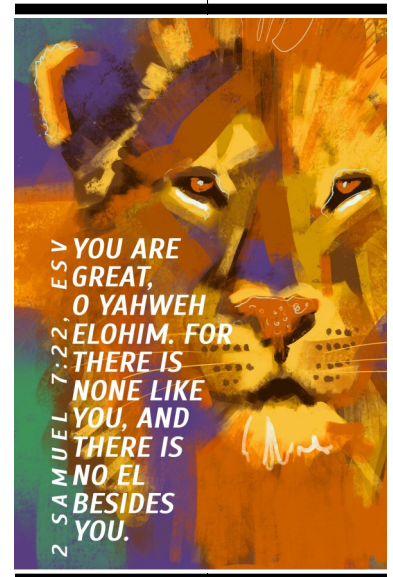

We won't need to be afraid of wild animals. Yahweh will actually change the nature of wild animals in the Kingdom. How nice it will be when people in certain villages in Africa won't have to worry about lions attacking their children. Even poisonous snakes won't harm people anymore.

Once the Kingdom is established, war and starvation will be a thing of the past. Many people around the world don't have enough food to eat. Famine is a way of life for them. Every year, over three million people die of starvation (and this is only the reported cases; the number is likely much higher). Famine can lead to other problems, too, such as illness and violence and people becoming sick from not eating healthy food. And violence results as people desperately try to control and fight for food and other resources.

Even our current weather patterns indicate that our world is under a curse. The weather will be perfect in the Kingdom. Floods, fires, natural disasters, and suffering will no longer be an issue. May we all pray, "Thy Kingdom come!"
