Happy New Year? **Not so fast!**

You may be hearing cheerful greetings of, "Happy New Year!" everywhere you go these days, along with various noisy celebrations and TV shows centered about this theme. Friends and teachers may even be encouraging you to make "new years resolutions." So we must ask, is it really a new year?

What does Yahweh's Word say about this matter? And how important is it that we find out the truth? For much of the world, people go along with their lives, never really questioning what they are doing day by day. But for anyone who really wants to have a relationship with the Creator of the Universe, searching out the truth becomes very important.

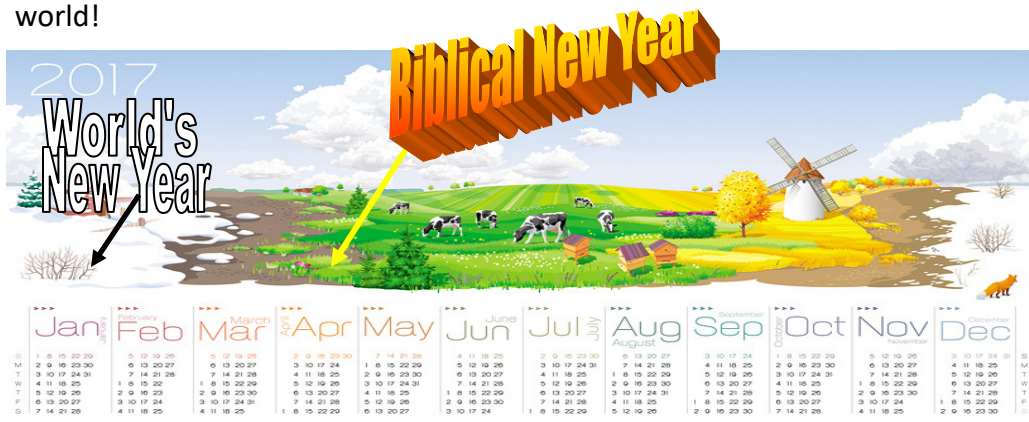

For our new readers, let's answer the numerous questions pertaining to the new year. It's actually really easy to find out when a new year occurs. The Bible tells us that Yahweh's new year begins in the spring, when new growth springs forth.

So why do most people believe a new year happens in the dead of winter? This is another easy one to answer. The idea of a winter new year began in paganism, mostly related to ancient sun worship and mankind's own imagination. In the Bible, we are told that we must only worship Yahweh alone. So anything that stems from paganism must be fully rejected.

If you are hearing this for the first time, you may be surprised or even shocked. Many blessings await those who embrace Yahweh's way of life and reject the world's ways. As one person put it, the benefits are out of this world!
