BEING A LIGHT NO MATTER HOW BIG OR SMALL YOU ARE

One thing is clear when you are a child, and that is the fact that you are to obey and learn from those older than you. But you also have many chances to teach others as well. How? If you have siblings older or younger than you, and they do not act as you believe they should, you can grab a hold of the moment and shine your light regardless of your age! Already you can practice and use the wisdom Yahweh has blessed you with! For example: If you notice that your siblings are not giving proper respect to your parent(s), you can show them through your actions how it is done. Eventually they will see how this pleases your parent(s), and want to do the same.

If there is resentment because of your good deeds, explain to them why you aim to be the best child you can be. For one: It pleases Yahweh and He rewards you through blessings (heavenly presents). Two: It makes life easier and more enjoyable for everyone in the family. Three: it helps your parents out when you know that life can be stressful enough without the help of tantrums, and acts of disobedience. Last but not least, it makes you feel joyful to know that you are doing what is right.

You may not be aware of it now, but your siblings will look at you for guidance either verbally or by observation. You have a very noble and important role in the family. (continued on next page)
