The Interesting Life of Moses

Of all the people in the Bible, most people seem to remember Moses. It may be because he was given one of the most important assignments that would forever change history.

Moses was born into an Israelite family during the time of the Pharaohs. As you may remember, the Israelites were slaves in Egypt. Pharaoh had ordered that all male Hebrew babies be killed, because the Hebrews were multiplying too fast, and Pharaoh was afraid they would eventually overpower the Egyptians. So Moses' mother placed him in a basket and floated him down the Nile river where he was found and raised by Pharaoh's own daughter.

When Moses grew older, he saw an Egyptian mistreating a Hebrew slave. Moses slew the Egyptian and fled to the land of Midian. He stayed in Midian and married Zipporah, the daughter of Jethro, a Midianite priest. In the course of time, Moses also reunited with his Hebrew birth family, including his mother, Jochebed, his brother Aaron, and his sister Miriam.

But by far, Moses was mostly known for leading the children of Israel out of the land of Egypt. Yahweh had appeared to Moses in a burning bush that would not be consumed by the flames and gave Moses this most important mission. Moses complained that he was not an eloquent speaker.

But alas, Moses went and did as Yahweh commanded. Through a series of powerful plagues, Pharaoh finally let the Israelites go.

Moses is also known for authoring the first five books of the Bible. There is much we don't know about Moses, but one thing is certain. He is still widely remembered to this very day, despite these events occurring thousands of years ago. Moses' life changed the course of history.

Never since has there arisen a prophet in Israel like Moses whom YAHWEH knew face to face.
