Volume 15 Issue 1

January 2021

## Yahweh's Seasons

Here in Missouri, we have very clear-cut seasons. Hot dry summers, cooler autumns, icy, snowy winters, and rainy springs are common and expected. But we also read of seasons in Scripture. Modern day Israel is no exception. Tourists who visit Israel are often shocked when they visit Israel in the winter, expecting warm desert conditions, but instead are met with cold temperatures, and even snow. Spring is the season which Yahweh chose to begin His new year. Most of the world has adopted the pagan practice of beginning a new year in January, in the dead of winter. It really makes no sense if you think about it. Winter is the worst time to start a new year. Even the word January comes from a pagan deity, specifically the Roman god Janus. Most people don't know the origins of most practices they keep. They continue keeping the traditions that were handed down to them for many generations. But Yahweh wants people to wake up to His truth!

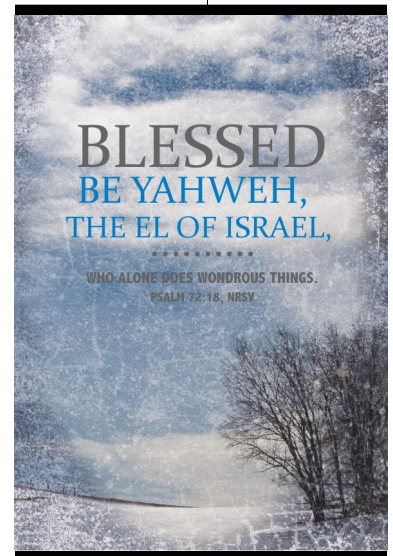

Spring is the time when new growth and life springs forth. The perfect time to begin a new year! Yahweh's Holy Days are centered around the harvests in spring, summer, and fall. Yahweh's Holy days have significant meaning to them. In fact, they spell out the plan of salvation for all

mankind. Yahweh's Holy Days are meant to be kept forever. We even find examples of all people keeping them in the Kingdom that will be established upon the earth. And they are meant to be kept by all people, not just flesh-born Israelites. We are even told in Scripture that Egypt will keep the Feast of Tabernacles. Ask your parents to tell you more about Yahweh's Holy Days or have them write for our free booklet, **Biblical Holy Days**.
