FALSE IDEAS OF MANKIND

Ever since the beginning of man's creation, and starting in the Garden of Eden, it seems that mankind has had false ideas about almost everything. Yahweh has given us His Instructions, found in the Bible, to show us the Truth. Let's look at some false ideas that mankind has been steeped in.

A good example is that every December 25th, many people celebrate the birthday of Yahshua. We know that He was NOT born on December 25th. His birth most likely occurred in the fall when it was still warm enough for shepherds to be in the fields. December 25th is known to be a pagan sun worship day.

Another good example of falsehood is the keeping of Sunday instead of the true Sabbath. Yahweh created the Sabbath for mankind's benefit. Yet, mankind changed the day of worship. The Scriptures clearly state that the Sabbath is the seventh day, not the first day of the week! This is one of the easiest things to prove. Ample evidence exists.

Yet another example of false worship involves Easter. People say Yahshua was raised on Easter Sunday. Easter is actually a pagan holiday named after a pagan fertility goddess.

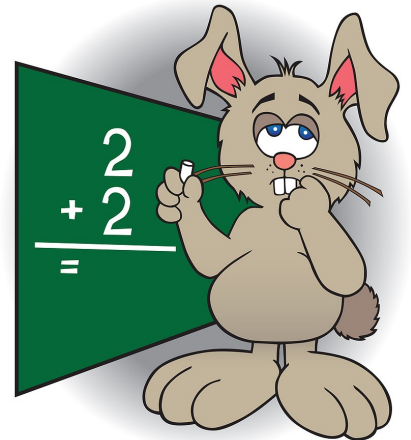

This next example may be less well known to you. Most public schools teach evolution, that people "evolved from lower life forms." This, too, is false. Yahweh created the heavens and the earth and all the fullness therein. Some say that Yahweh needed to use evolution to create people. We

know this is also untrue. We could go on and on with the many falsehoods, but let's learn the Truth by reading the Bible! The whole duty of mankind is to serve Yahweh.
